This document, and in particular the section entitled "2016 Guidance", contains forward-looking statements. These statements may include terms such as "may", "will", "expect", "could", "should", "intend", "estimate", "anticipate", "believe", "remain", "on track", "design", "target", "objective", "goal", "forecast", "projection", "outlook", "prospects", "plan", "intend", or similar terms. Forward-looking statements are not guarantees of future performance. Rather, they are based on the Group's current expectations and projections about future events and, by their nature, are subject to inherent risks and uncertainties. They relate to events and depend on circumstances that may or may not occur or exist in the future and, as such, undue reliance should not be placed on them. Actual results may differ materially from those expressed in such statements as a result of a variety of factors, including: the Group's ability to reach certain minimum vehicle sales volumes; developments in global financial markets and general economic and other conditions; changes in demand for automotive products, which is highly cyclical; the Group's ability to enrich the product portfolio and offer innovative products; the high level of competition in the automotive industry; the Group's ability to expand certain of the Group's brands internationally; changes in the Group's credit ratings; the Group's ability to realize anticipated benefits from any acquisitions, joint venture arrangements and other strategic alliances; potential shortfalls in the Group's defined benefit pension plans; the

Group's ability to provide or arrange for adequate access to financing for the Group's dealers and retail customers; the Group's ability to access funding to execute the Group's business plan and improve the Group's business, financial condition and results of operations; various types of claims, lawsuits and other contingent obligations against the Group; disruptions arising from political, social and economic instability; material operating expenditures and other effects from and in relation to compliance with environmental, health and safety regulation; developments in labor and industrial relations and developments in applicable labor laws; increases in costs, disruptions of supply or shortages of raw materials; exchange rate fluctuations, interest rate changes, credit risk and other market risks; political and civil unrest; earthquakes or other disasters and other risks and uncertainties.

Any forward-looking statements contained in this document speak only as of the date of this document and the Company does not undertake any obligation to update or revise publicly forward-looking statements. Further information concerning the Group and its businesses, including factors that could materially affect the Company's financial results, is included in the Company's reports and filings with the U.S. Securities and Exchange Commission, the AFM and CONSOB.

## APPENDIX

FCA monitors its operations through the use of various supplemental financial measures that may not be comparable to other similarly titled measures of other companies. Accordingly, investors and analysts should exercise appropriate caution in comparing these supplemental financial measures to similarly titled financial measures reported by other companies. Group management believes these supplemental financial measures provide comparable measures of its financial performance which then facilitate management's ability to identify operational trends, as well as make decisions regarding future spending, resource allocations and other operational decisions.

FCA's supplemental financial measures are defined as follows:

- Adjusted Earnings Before Interest and Taxes ("Adjusted EBIT") is computed starting from EBIT and then adjusting to exclude gains and losses on the disposals of investments, restructuring, impairments, asset write-offs and other unusual items that are considered rare or discrete events that are infrequent in nature. These same items, on a tax effected basis, are factored into the calculation of Adjusted net profit and Adjusted basic EPS
- Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") is computed starting with EBIT and then adding back depreciation and amortization expense
- Net Industrial Debt is computed as debt plus other financial liabilities related to Industrial Activities less (i) cash and cash equivalents, (ii) current securities, (iii) current financial receivables from Group or jointly controlled financial services entities and (iv) other financial assets. Therefore, debt, cash and other financial assets/liabilities pertaining to Financial Services entities are excluded from the computation of Net Industrial Debt
